## Consultation Details

### CDetail-0006158

Consultation Category	<b>Traffic Congestion</b>
Detail	People use it Breadsall as a cut through to get to the A38. This will increase this further

### CDetail-0006159

Consultation Category	<b>Road Safety</b>
Detail	The roads are already busy, especially the junction of Brookside Road and Lime Lane already. There have been a number of accidents

### CDetail-0006160

Consultation Category	<b>Air Quality</b>
Detail	Standing traffic will increase with the amount of traffic

### CDetail-0006161

Consultation Category	<b>Green Belt</b>
Detail	This is the only bit of land separating Derby City and Breadsall Village, it removes the village boundaries

### CDetail-0006162

Consultation Category	<b>Flooding / Drainage</b>
Detail	There are huge issues already with flooding in Breadsall Village, this will also increase the flow of water to the bottom of the hill in to the village

### CDetail-0012421

Consultation Category	<b>Other</b>
Detail	<p>I am following up on issues I raised at the full council meeting regarding the accuracies of the maps and information on Breadsall Hilltop land allocation. The map in the consultation document is not up to date and does not include the Durose development that is already built, if you look at the area on google maps you can see the further development. I am also concerned that the information is not accurate regarding Hungerhill Crescent as it is not a crescent, it is a close.</p> <p>These were raised at full council by myself prior to the consultation going out and I am concerned that the inaccuracies alter the way in which the information is viewed, as it looks like there is more 'green space' than there is. It also, makes me question the validity of the responses if people are unaware of the other developments in the area and that there will be little green space left.</p>
