CDetail-0008788	
Consultation Category	Bus Services
Detail	We believe the comments in our previous objection remain relevant.
	We fail to believe that improvements to bus halts, and the service provided, without seeking to improve

the frequency or add additional routes, will not result in increased bus use.

Whilst funding for a Danebridge Crescent service would be welcomed, after services were reduced and amended, we do not believe it would be of much benefit to residents who would reside on this land.

Consultation Category	<b>School Capacity</b>
	The comments in our previous objection remain relevant.
Detail	The removal of financial contributions to schooling in the immediate area will do nothing for future residents who would reside on this land, and will guarantee the schools status as car dependant. We assume this has come due to the disagreement between Erewash BC and Derby CC regarding schooling, which came from Erewash BC's continuous assumption that Derby CC would provide educational places for residents on this land, despite being repeatedly told that they would not, and despite Derbyshire CC having a duty to provide the places.
	We would like to know what schools financial contributions would be made towards.
